

# HYCON HPS12 POWER SAW

## INTEGRATED MOTOR DESIGN – DOESN'T BLOW SEALS

## SHORT BODY - ERGONOMIC DESIGN

## FLUSH CUT AS STANDARD

## PRODUCT FEATURES

The HYCON HPS12 power saw cuts all types of concrete, steel, rock, etc. The HYCON HPS12 power saw is, with its 46 LPM oil flow, built for very heavy-duty concrete cutting, and it is made for flush cutting as standard.

The body is the shortest on the market, 7 cm shorter than comparable saws. That makes the grip more comfortable for the user and allows the saw to work in confined spaces.

The saw is built with ergonomics in mind, with an integrated wall walker that improves user experience, and with 2-meter

whip hoses so the couplings can rest on the floor during the cut, removing the weight from the saw. The saw is easily mountable in our SawEZ guide rail, ensuring the perfect cut, every time.

The HYCON Power Drive's high-quality, purpose-built motor ensures a minimum of service because it doesn't blow seals. The integrated drive unit design minimizes points of failure, making your tool last much longer.

## HYDRAULIC POWER SAW HPS12

Item no.	3030800
Weight without hoses [kg / lbs]	8 / 17.6
Body length [mm / inch]	480 / 18.8
Max cutting depth [mm / inch]	630 / 25
Oil flow [LPM / GPM]	40-46 / 10-12
Max pressure [bar / psi]	172 / 2500
Max return pressure [bar / psi]	40 / 580

## ACCESSORIES

HYCON SawEZ Guide Rail, item no. 4040100. Adaptor, item no. 4040119. Drive Sprocket, item no. 8233774

## THE HYCON PRODUCT RANGE

ANGLE GRINDER · CUT-OFF, RING, POWER, AND HAND SAWS · CORE DRILLS · PICK HAMMER · LIGHT & HEAVY-DUTY  
BREAKERS SUBMERSIBLE PUMPS · ROCK DRILLS · GASOLINE, DIESEL AND ELECTRIC POWER PACKS
